ZENworks Mobile Management for iOS Release Notes

The *Novell ZENworks Mobile Management* application for iOS devices is a component of the *ZENworks Mobile Management* enterprise MDM platform. The *ZENworks Mobile Management* application communicates with the *ZENworks Mobile Management* server.

ZENworks Mobile Management was designed to enable iOS users to keep up-to-date with company security policies and management features, ensuring confidentiality and integrity of wirelessly transmitted corporate information. The *ZENworks Mobile Management* application enables an IT administrator to push out configuration profiles to various iOS devices for easy VPN and Wi-Fi access. The *ZENworks Mobile Management* application also enables you to access your company's recommended applications and utilize the self-servicing dashboard to locate a misplaced device or issue a lock/wipe command to a potentially compromised device.

This document provides a history of releases including dates, known issues, and notes for the *ZENworks Mobile Management* administrator.

Revision History

Date	Author	Description of Changes
2012.07.16	Anthony Costello	2.5.3.0 Release

Installation Information

Date: 07/16/2012

Product: *ZENworks Mobile Management* for iOS Devices

Requirements

This is a brief summary of the requirements; see the User Guide for the full set of requirements.

- iOS 4.x and 5.x devices with multitasking capabilities (iPhone, iPod touch, and iPad)

Installation Package

The *ZENworks Mobile Management* app is available on the iTunes App Store.

Known Issues

1. After a file has been downloaded to the device, an appropriate app must be available to open or view the file. In some case, the OS is capable of opening the files automatically, but in other cases a third-party app is required (for example, .wav files). [5287]
2. Large files downloaded through the File Share feature might take a long time to load. [5471]

Version History

Version: 2.5.3.0

Description: Initial Public Release

Date: 2012.07.16

Key Features

1. Management of policies on the device.
2. Configuration of:
 - a. VPN
 - b. Wi-Fi
 - c. Exchange account
 - d. Mail account
 - e. CalDAV account
 - f. CardDAV account
 - g. LDAP Server
 - h. SCEP Server
3. Reporting of device statistics to the *ZENworks Mobile Management* server.
4. Jailbreak detection.
5. Handling for a device log request that can be issued by the administrator in the *ZENworks Mobile Management* dashboard.
6. Support for Mobile Apps that are located in the iTunes App Store. Also incorporates managed apps features of the iOS Developer Enterprise Program (iDEP) advanced MDM functionality.
7. Support for File Share from the *ZENworks Mobile Management* server.
