

# Novell SecureLogin 7.0 Service Pack 3 Hotfix 1 Readme

May, 2012

Novell®

Novell SecureLogin is a single sign-on application. It consists of multiple, integrated security systems that provide authentication and single sign-on to networks and applications. It provides a single entry point to the corporate network and its user resources, increasing security while enhancing compliance with corporate security policies. Novell SecureLogin also eliminates the requirement for users to remember multiple usernames, and passwords and automatically enters them for users when required. For detailed information on Novell SecureLogin, visit the [Novell SecureLogin product Web site](#).

Novell SecureLogin 7.0 Service Pack 3 Hotfix 1 improves usability, and resolves several previous issues. Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure our products meet all your needs.

## 1 What's New?

Novell SecureLogin 7.0 Service Pack 3 Hotfix 1 includes the following enhancements and software fixes.

---

**NOTE:** For the list of new features, software fixes and enhancements in SecureLogin 7.0 Service Pack 3, see the [Novell SecureLogin 7.0 Service Pack 3 Release Notes](#).

---

- ♦ [Section 1.1, "Enhancements," on page 1](#)
- ♦ [Section 1.2, "Software Fixes," on page 2](#)

### 1.1 Enhancements

#### 1.1.1 Mozilla Firefox Support

SecureLogin 7.0 SP3 hotfix 1 supports Mozilla Firefox 11.0 and Mozilla Firefox 12.0.

### 1.1.2 New slaptool Command to Cleanup the Prot:SSO Entry Attribute

slaptool now has a new command line option, `-d`, which is used for deleting user IDs, applications, and password policies from the `Prot:SSO Entry` attribute of the specified directory object using `-l`, `-a`, and `-p` command respectively. (BUG 756432)

## 1.2 Software Fixes

### 1.2.1 Repeat Command does not Accept a Variable to Store the Iteration Number

Repeat command now has an option to store the iteration number in a variable. (BUG 201381)

### 1.2.2 slDotNetSSO process does not Launch when .netFramework 4 is Installed

SecureLogin now automatically launches slDotNetSSO process when .netFramework 4 is installed in the system. (BUG 755944)

### 1.2.3 IP Address Entry from the Protocom-SSO-Connections Attribute is not Removed

The IP address entry from the Protocom-SSO-Connections attribute is now removed when the user logs out. (BUG 752620)

### 1.2.4 LDAP Authentication takes a Long Time to Authenticate the User

The performance of LDAP authentication is now improved. It now takes 1-2 seconds to authenticate the user. (BUG 746536)

## 2 System Requirements

For detailed information of supported environments, see [“Supported Environments”](#) in the [Novell SecureLogin Quick Start Guide](#).

## 3 Installing SecureLogin 7.0 Service Pack 3

To install SecureLogin 7.0 Service Pack 3, see [Novell SecureLogin Installation Guide](#).

## 4 Known Issues

For detailed information of all the known issues for SecureLogin 7.0 Service Pack 3, see [“Known Issues”](#) in the [Novell SecureLogin 7.0 Service Pack 3 Release Notes](#).

## 5 Documentation

The complete documentation is available at, [Novell SecureLogin 7.0 SP3 Documentation Web Site](#).
